

# DigiVal

Digital Valuation System

Revolutionizing  
Exam Answer  
Script Valuation

# PROBLEM STATEMENT

## Challenge

- Physical handling of answer scripts is time-consuming and cumbersome.
- Risk of losing or damaging answer scripts during transit.
- Delays in valuation and result announcements.
- Limited flexibility for faculty to value scripts anytime, anywhere.

## Solution

**DigiVal:** A system to digitize answer script valuation for faster, efficient, and secure processing.

01

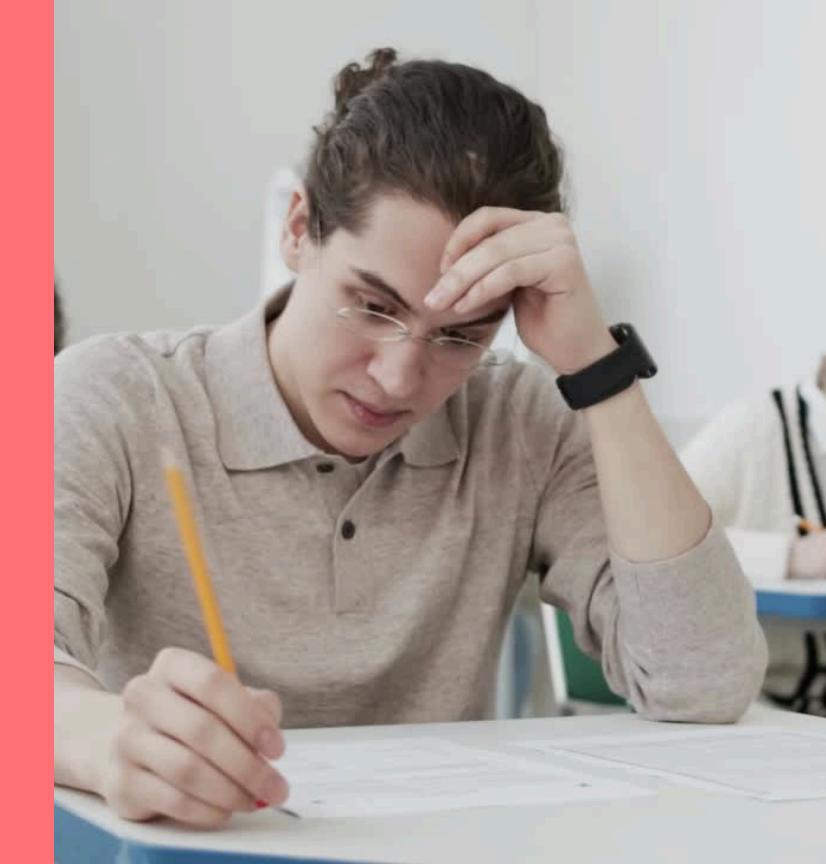

02

## KEY FEATURES

- **Digital Valuation:** No need for physical scripts; everything is managed digitally.
- **Accessibility:** Faculty can value answer scripts from anywhere, anytime.
- **Instant Results:** Faster result generation and announcement.
- **Secure Storage:** Digital archives ensure safety and accessibility of scripts.

# OUTCOMES

- **Streamlined Process:** Simplifies script management from scanning to valuation.
- **Accessibility:** Faculty can use laptops or tablets for valuation.
- **Efficiency:** Eliminates the need to carry physical scripts.
- **Instant Results:** Quick turnaround from valuation to result publication.

# REQUIRED HARDWARE

Barcode Printer

ADF Scanner

Paper Cutter

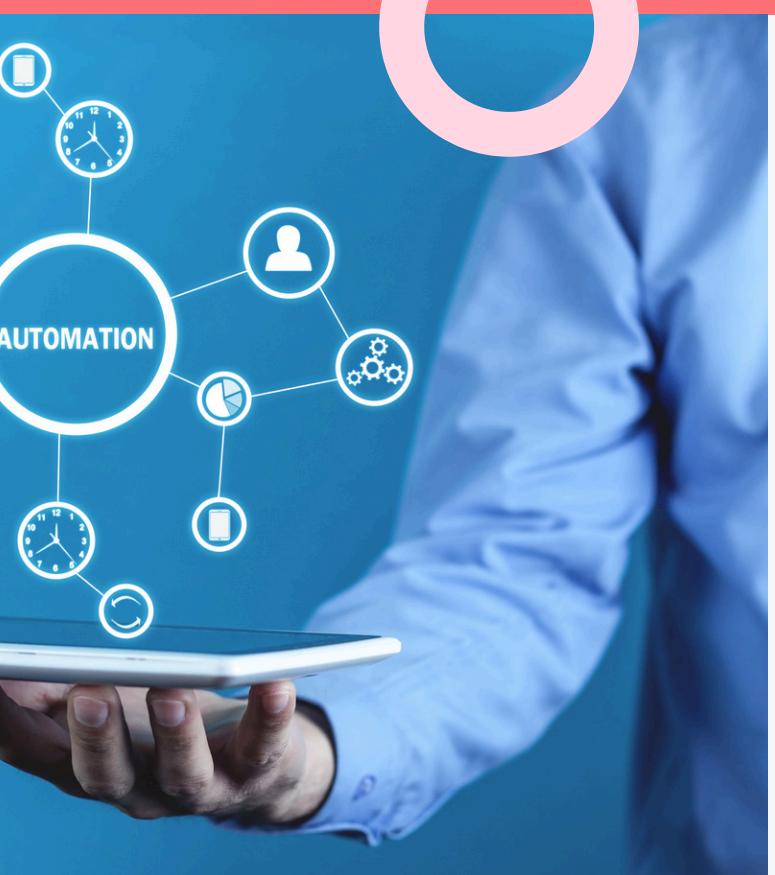

Faculty Devices for Valuation

04

# SIMPLE WORKFLOW

## 1. Exam Schedule Preparation:

- Organize and manage exam schedules on the DigiVal platform.
- Assign unique barcodes to each script at examination hall.

## 2. Post-Exam Scanning:

- Scan answer scripts using high-speed ADF scanners.

## 3. Script Valuator Identification:

- Assign valiators based on subjects and availability.

## 4. Script Allocation:

- Allocate scanned scripts digitally to faculty for valuation.

## 5. Valuation:

- Faculty perform valuation on their devices.

## 6. Result Announcement:

- Once valuation is complete, results are generated instantly.

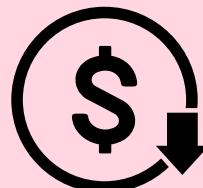

# ADVANTAGES OF DIGIVAL

**Time-Saving:** Faster processing and valuation.

**Convenience:** Valuation anytime, anywhere.

**Cost-Effective:** Reduces logistics and manual work.

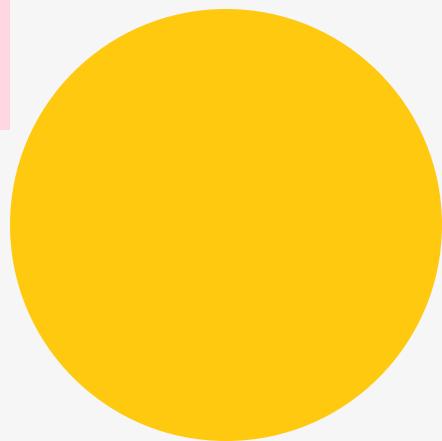

**Accuracy:** Minimizes human error in handling and scoring.

**Environment-Friendly:** Reduces paper usage and physical storage needs.
